K500

Irreversible Operator for Residential Sliding Gates

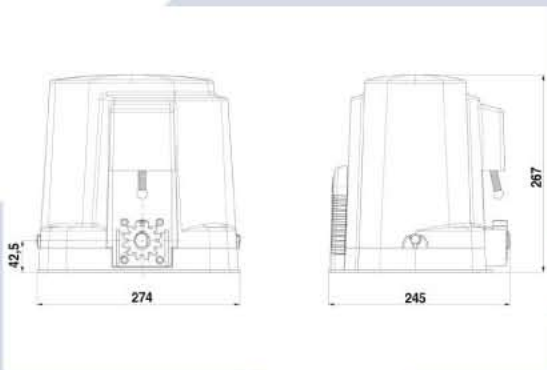

Similar to the K5 (see previous page), K500 has some more important peculiarities:

- More intensive use of the product (until 25 consecutive cycles guaranteed before entering in overheating pause).
- The fixing plate included permit the regulation in height and the implantation on the ground with expansion screws or through cementation of its attachments.
- K500 can be installed on the same base plate the K5.
- Release with personalized key.
- Transmission gear in syntherized steel.
